BA Semester –I

DSC-SOC-1: Introduction to Sociology

Course Objectives:

This course introduces the students the basic concepts of Sociology in a changing world. It describes how sociologists understand continuity and change, distinguishes between Sociology as a science and its role in social reform. The course provides an overview of different sociological perspectives and how they help in understanding the social construction of reality in the real world.

Course Outcomes:

At the end of the course, the student will be able to:

- Understand the nature and role of Sociology
- Comprehend the uniqueness of sociological imagination in the study of the real world
- Recognize different perspectives of perceiving the working of social groups
- Differentiate between Sociology's two purposes-science and social reform
- Express one's understanding of current social issues in oral and written forms

Pedagogy: Blended learning, group discussions, field visits, written/oral presentations by the students.

Content of Course : Introduction to Sociology	80Hrs
Unit– 1 Sociology as Science	16
